The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).</p>

 <b>MONICA CARTER</b> <b>SUPERVISORY PATENT EXAMINER</b>			

Continuation of 11. does NOT place the application in condition for allowance because: Applicant's argument that Dawson '840 does not teach "a pair of elongate leaves mounting a respective one of the ring members" is not persuasive because a portion 27 of the elongate leaves 25 each have one of the ring members 19/21 mounted on them, as seen in figure 3. Applicant's argument that Dawson '840 does not show "an elongate plate having longitudinal ends wherein at least one of the longitudinal ends includes first and second end portions located on one transverse side of the elongate plate and being bent over to present a longitudinally facing surface which is blunt" because in Dawson "the corner defines an edge" is not persuasive because it can be seen that the longitudinally facing surface (the side identified by label 31 in figure 1) formed by end portion 31 and the edge of end portion 15 as seen in figure 1 is blunt. There is no requirement in the claim that the corner be blunt. For the reasons as set forth above, the rejections are maintained.
